Performance Testing

Team ID: SWTID-2026-9848

Team Size: 5

Project Name: Streamlining IT Procurement: Automating Standard Laptop Orders with Flow Designer

Step 1: Testing Overview

Field	Details
Testing Tool Used	
Type of Testing	
Target Module / API	Flow Designer – Standard Laptop Order Automation
Test Environment	
Test Date	29 September 2026

Step 2: Test Scenarios

S.No	Test Scenario / Description	Virtual Users	Duration (sec)	Expected Outcome
1	Submit a standard laptop order request			Flow executes successfully
2	Process multiple laptop order requests			Requests are processed suc
3	Validate flow execution and record update			Correct records are updated
4	Check error handling during order processing			Errors are handled without fa

Step 3: Performance Test Results

S.No	Metric	Target Value	Actual Value	Status
1	Response Time (Avg)	< 2 seconds		
2	Response Time (Max)	< 5 seconds		
3	Throughput (Req/sec)			
4	Error Rate	< 1%		
5	CPU Utilization	< 80%		
6	Memory Utilization	< 80%		

Step 4: Observations & Analysis

To be completed after the performance test results are obtained.

Step 5: Screenshots / Evidence

Attach screenshots of the performance testing tool results here.
